

# Boating abroad this summer?

Make sure your kit is clean before using it again at home

**CHECK**

**Check** boats, equipment, and clothing after leaving the water for mud, aquatic animals, or plant material. Remove anything you find and leave it at the site.

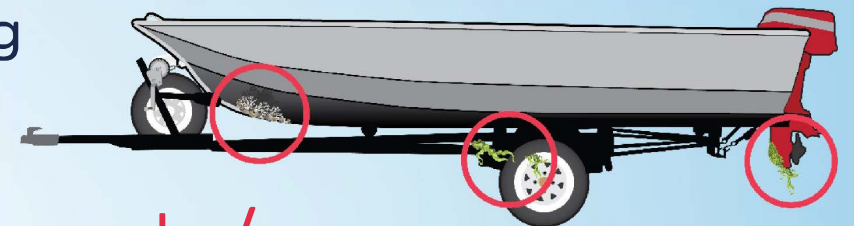

Invasive plants block waterways and could easily be spread on your kit

**CLEAN**

**Clean** everything thoroughly as soon as you can. Use hot water if possible. Reapply anti-fouling annually.

**DRY**

**Dry** - drain water from every part of your boat and trailer before leaving the site. Dry everything thoroughly before using it elsewhere.
