

Paddling abroad this summer?

Make sure your kit is clean before using it again at home

CHECK

Check boats, equipment, and clothing after leaving the water for mud, aquatic animals, or plant material. Remove anything you find and leave it at the site.

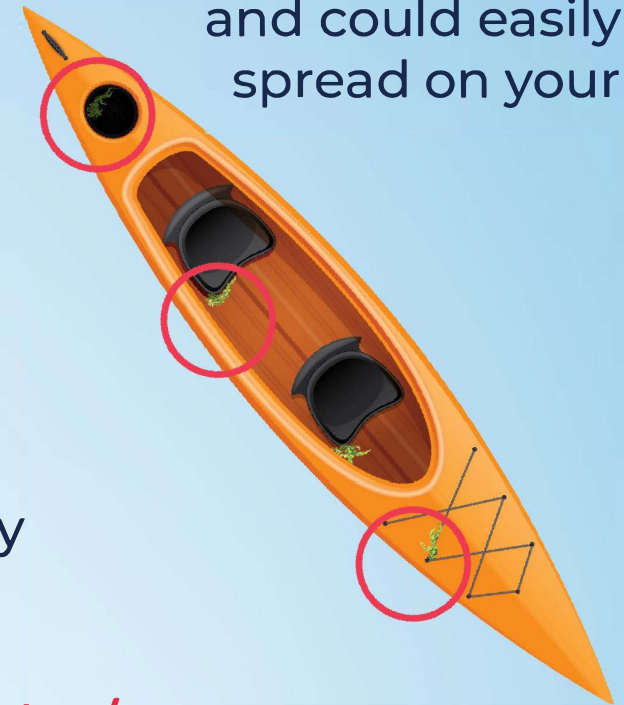

CLEAN

Clean everything thoroughly as soon as you can. Use hot water if possible.

DRY

Dry - drain water from every part of your boat and dry it with a towel before leaving the site. Dry everything thoroughly before using it elsewhere.

Invasive plants block waterways and could easily be spread on your kit
