

Help **STOP** the spread of Invasive Alien Species

Anglers, Boat users and recreational users of water can help in stopping the spread of Invasive Alien Species by following the **Check Clean Dry** campaign

Once Invasive species become established they can be costly and difficult to eradicate from our watercourses.

Pacifastacus leniusculus

Crassula helmsii

Chinese Mitten Crab

Corbicula fluminea

Hydrocotyle ranunculoides

If you suspect you have found one of these, or any of the other species listed seek definitive identification from the **NIEA Alien Invasive Species Team - 028 9056 9558**
